01 Introduction

About us

INTRODUCTION

Brand Story

Eden Gardens began with a simple observation: people want plants in their homes and offices, but most give up within the first few months – not from a lack of love, but a lack of guidance.

We started as a small neighbourhood nursery and grew into a plant partner – pairing every sale with real, ongoing care. Our stylists help clients choose the right plant for their light and lifestyle; our maintenance teams keep those plants thriving for years, not weeks.

Today, Eden Gardens brings greenery and the knowledge to keep it alive to homes and workplaces – one root system, one relationship, at a time.

Mission, Vision & Values

Mission

To make plant ownership easy, joyful, and sustainable – by pairing every plant we sell with the expertise to keep it alive.

Vision

A world where every home and workplace is a little greener, and no plant is ever abandoned for lack of know-how.

Values

- Care first
- Honest guidance
- Sustainability
- Community roots
- Calm, unhurried craft

INTRODUCTION

Brand Personality

If Eden Gardens were a person, they'd be the friend who always knows why your fiddle-leaf fig is drooping – and tells you gently, without judgement.

- Nurturing Warm and encouraging, never condescending about a yellowing leaf.
- Knowledgeable Confident, research-backed advice delivered in plain language.
- Grounded Calm, unhurried, and honest – no hard sells, no jargon.
- Optimistic Genuinely excited about growth, second chances, and new leaves.

WE ARE / WE ARE NOT

Warm	Cold
Expert	Preachy
Simple	Simplistic
Calm	Boring
Playful	Silly
Premium	Pretentious

INTRODUCTION

Brand Voice & Tone

We Sound

- Warm and plain-spoken
- Encouraging, never scolding
- Specific – real advice, real numbers
- Quietly confident

We Avoid

- Jargon without explanation
- Guilt-tripping about "dead plants"
- Hype, urgency, or hard sells
- Overly clinical instructions

EXAMPLE

"Yellow leaves near the base are usually just your pothos shedding old growth — totally normal. If new leaves are yellowing too, let's check the watering schedule together."

INTRODUCTION

Target Audience

The First-Time Plant Parent

25-38. Renting or newly settled, wants to make a space feel alive but has killed plants before. Needs reassurance and simple rules.

The Office Manager

30-50. Responsible for a workplace that should feel welcoming and calm. Wants reliable upkeep with zero admin burden.

The Considered Collector

28-45. Already plant-confident, seeking rarer specimens, styling advice, and a maintenance partner for when life gets busy.

02 Brand identity

Colour Palette

BRAND IDENTITY

Logo Design & Concept

The Eden Gardens logo symbolizes growth, care, and harmony with nature. The potted plant reflects nurturing and sustainability, while the arch represents protection and a welcoming environment. Together, they communicate a brand that helps plants and people thrive.

- Arch symbolizes shelter, trust, and care.
- Potted plant represents healthy living and plant maintenance.
- Minimal, timeless design for versatile applications.

BRAND IDENTITY

Logo Construction

Built on a simple x-height grid. The leaf mark sits on a square module; the wordmark baseline aligns to the mark's horizontal centre.

EDEN GARDENS

Accompanied with Cormorant Garamond typeface

The clear-space module (x) is measured from the leaf mark's width and repeated on all four sides – see page 08.

BRAND IDENTITY

Logo Variations

Primary — Full Colour

Reversed — Dark Bg

On Terracotta

Mono — Black

Icon-Only Mark

Horizontal Lockup (for wide headers/signage)

Clear Space & Minimum Size

Minimum clear space equals the height of the leaf mark (x) on every side. Keep this zone free of text, edges, and competing graphics.

Minimum Size

Digital: 24px icon / 90px lockup wide

Print: 0.35in icon / 1.25in lockup wide

Never scale the mark below these sizes — the leaf's stem detail breaks down and the wordmark becomes illegible.

Typography

Aa

Cormorant Garamond

Display & Headlines — warm, trustworthy serif used for the logotype, titles and pull quotes.

Aa

Avenir Next LT Pro

Body & UI — clean, legible sans-serif for paragraphs, labels, forms, and care instructions.

H1 — Section Title

H2 — Subheading

Body — Every plant leaves our greenhouse with a care card written in plain language.

CAPTION / LABEL

Usage Notes

- Body copy never smaller than 10pt
- Left-align paragraphs; centre only short titles
- Avoid all-caps for long sentences — reserve for labels
- Maintain generous line spacing (1.2–1.4x) for readability

Colour Palette

A calm, nature-led palette. Forest green dominates; green and dark cream keep it light; terracotta warms every touchpoint.

Forest #2F4A3D <i>Primary — 60%</i>	Green #7FAC57 <i>Secondary — 20%</i>	Terracotta #E76A34 <i>Accent — 10%</i>	Dark Cream #AC9D58 <i>Base — background</i>	Mud Yellow #635924 <i>Text</i>
--	---	---	--	---

60 / 20 / 10 / 10 Rule

Forest carries most surfaces and headlines. Green and dark cream provide breathing room. Terracotta is reserved for CTAs, highlights, and moments of warmth — never used as a base colour.

BRAND IDENTITY

Incorrect Logo Usage

Consistency builds trust. Never modify the mark in these ways:

- ❌ Do not recolour outside the approved palette
- ❌ Do not place on busy or low-contrast photography
- ❌ Do not stretch, squish, or rotate the lockup
- ❌ Do not separate the leaf mark from the wordmark
- ❌ Do not add drop shadows, outlines, or effects
- ❌ Do not change or substitute the typeface

EDEN GARDENS

03 Imagery & souvenir

Graphic Elements & Pattern, Photography Style, Iconography,
Stationery, Social Media, Packaging, Plant Care Cards,
Merchandise

Graphic Elements & Pattern

A scattered leaf pattern is our supporting graphic language — used sparingly to frame, never to decorate.

Rounded corners echo the leaf's soft edges — used for cards, buttons, and image frames throughout.

Photography Style

Natural light, honest textures, real homes. We photograph plants as they live — not styled beyond recognition.

Do

Soft natural light • genuine imperfection • muted, warm tones • close, tactile crops

Don't

Harsh flash • oversaturated filters • sterile studio backdrops • stock-photo posing

Iconography

A consistent line-and-fill icon set covers care instructions, services, and wayfinding across the site, app, and plant tags.

New This Week

Fresh monstera & pothos just arrived in the nursery.

Packaging & Plant Care Cards

Kraft Carry Bag

Pot Sleeve Wrap

Shipping Box

Care Card (Reverse)

Merchandise

Small, useful items that turn customers into everyday ambassadors.

Merch carries the seal mark or the secondary logo — never the full lockup at small scale. One accent colour per item, drawn from the primary palette.

04 Application guidelines

Brand Applications,
Usage Rules & Contact

APPLICATION & GUIDELINES

Brand Applications

APPLICATION & GUIDELINES

App & Digital UI

Brand Guidelines & Usage Rules

Consistency

Always use approved logo files. Never recreate the mark by hand or with a different font.

Voice Consistency

Every customer touchpoint — email, tag, app — should sound like the same helpful person.

Colour Discipline

Follow the 60/20/10/10 ratio. Terracotta is an accent, never a base colour.

Sustainability First

Prefer recyclable, low-impact materials for packaging and merchandise.

Breathing Room

Respect clear space around the logo and generous whitespace in every layout.

When in Doubt

Simplify. Remove an element before adding one.
